

GOOD DAY DEFENCE SCHOOL

New Sainik School Hanumangarh

Dear Parents,

October 5 at Good Defence School, Hanumangarh reflected the steady rhythm of school life as students continued their academic journey, the Half-Yearly Examination season moved towards completion, and the school community remained focused on learning, wellbeing and continuous improvement.

Half-Yearly Examinations | The Final Stretch

The Half-Yearly Examinations are nearing completion, marking the final phase of an important academic period for our students. As students work through the final papers, the focus remains on maintaining concentration, preparation and consistency. The examination period has also provided students with an opportunity to develop valuable habits such as managing their time, working independently and approaching academic challenges with confidence.

Academic Learning Across Grades

Class 6 explored **Temperature and Its Measurement**, connecting scientific concepts with everyday observations, while Class 12 Arts studied **Geography Chapter 5: Secondary Activities**, developing an understanding of their role in economic development. Meanwhile, Class 12 delved into **Indian Economic Development and the Goals of Five-Year Plans**, exploring India's planned approach to development and the priorities that shaped its economic journey.

Class 12 Arts Geography Chapter 5: Secondary Activities

Class 12 Indian Economic Development and the Goals of Five-Year Plans

Leadership in Action & Daily Care at GDDS

Leadership in Action | Staff Meeting with the Chairman

The day also included a staff meeting with **Chairman Mr. Dinesh Juneja**, providing an opportunity for the school's team to come together, discuss ongoing priorities and align their efforts. Regular leadership interactions help ensure that academic, administrative and student-related priorities remain connected and that the entire team continues to work towards a common vision for GDDS.

Healthy Food for an Active Day

With students balancing academics, examinations and their regular school routine, healthy food remains an important part of life at GDDS. The school mess continued to provide students with regular meals, supporting their energy and wellbeing throughout the day. For a residential school, good nutrition is not simply about a meal. It is an essential part of creating healthy routines that support students through their academic and physical commitments.

A Regular Lunch, A Moment to Recharge

Students also followed their regular lunch routine, taking a well-earned break between the day's academic and scheduled activities. These everyday moments of nourishment and interaction are an important part of maintaining balance during a busy academic period.

7.2. TEMPERATURE

Meaning :

- A reliable measure of hotness (or coldness) of a body is its **TEMPERATURE**.
- A hotter body has a higher temperature than a colder body.
- The difference in temperature between two bodies tells us how hot or cold a body is in comparison to another body.

Thermometer : A device that is used to measure temperature is called a **THERMOMETER**.

Types of Thermometers

- 1. Clinical Thermometer**
 - Used to measure human body temperature.
 - Shows temperature digitally.
- 2. Laboratory Thermometer**
 - Used for many other purposes in the laboratory.
 - Example - Boreglass - Measuring temperature of water, air, etc.

KEY POINTS

- Temperature tells how hot or cold a body is.
- It is a scalar quantity.
- Measured using a thermometer.
- Clinical thermometer - Body temperature.
- Laboratory thermometer - For other measurements.

Quick Recall

- Hotter body -> Higher temperature.
- Colder body -> Lower temperature.
- Thermometer -> Measures temperature.

Learning Continues, Even as Exams Near Completion

October 5 reflected the balanced rhythm of GDDS life. While students remained focused on completing their Half-Yearly Examinations, regular classroom learning, leadership discussions and healthy residential routines continued alongside them.

From understanding temperature in Science to exploring economic development, from leadership conversations to healthy meals, every part of the day contributes to a larger purpose: preparing students to learn with curiosity, work with discipline and grow with responsibility.

Warm regards,
